

Funraise is an **all-in-one** nonprofit fundraising platform.

Built by nonprofiteers.

Funraise was built by hardworking nonprofit workers like you—we know your stresses because they were ours. So we built an easy-to-use, innovative, effective fundraising platform that's loved by thousands of nonprofits.

Making fundraising fun is serious business.
So we made a musical about it.

We also make useful videos like [tutorials](#)
and [strategy webinars](#). No music involved.

More than technology

Although our tools are delightfully advanced, Funraise is more than a fundraising platform. Our collective nonprofit experience and passion for impact is evident in every facet of Funraise's platform—and every customer reaps the benefits as they build their mission.

Funraise was started by

Funraise began while our co-founders, Justin, Jason, and Tony, were working together at a

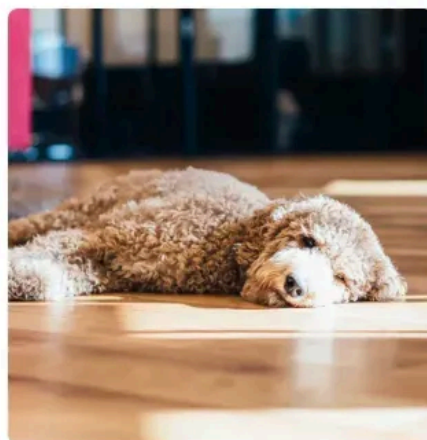

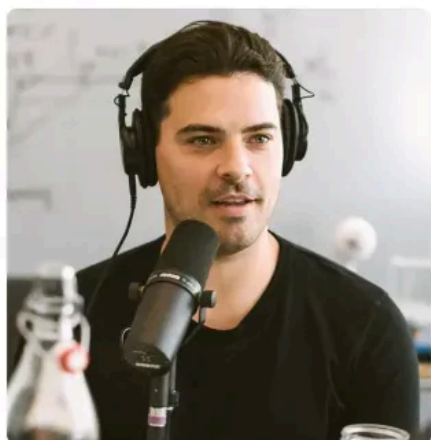

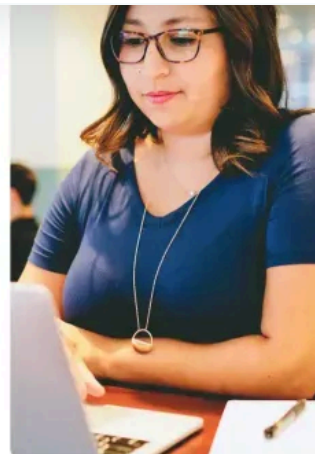

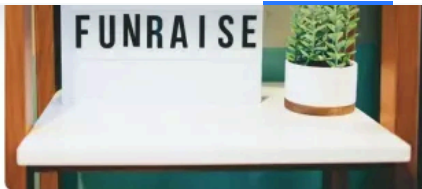

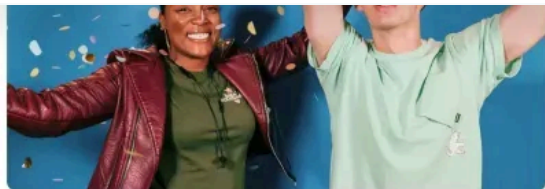

And now, we're powered by dedicated team of nonprofit experts, enthusiasts, and fundraising strategy hype beasts.

Plus, single hype beasts, aka the goodest dogs

had raised millions online, but over and over, we found ourselves spending significant resources implementing technology solutions for our fundraising ideas. Eventually, we realized we were using a bunch of platforms to essentially do one thing: fundraise online.

We built Funraise to solve the problems we faced as nonprofit fundraisers.

The child of nonprofit experience and innovation, Funraise was created to save you time and resources using a modern approach to data management. Using Funraise, nonprofits have a connected suite of tools designed to bring their wildest fundraising ideas to life.
